

PA Congressional District 12

Report

Company Background:

Dane & Associates started business in 1997 specializing in Automated Communications. Over the past 11 years we have developed a system of polling using our proprietary Automated Technology. Our results have been proven accurate, and our margin of error percentages have been reduced based on the type of survey we are conducting. Throughout the years, Dane & Associates has been able to target anomalies in voting patterns and predict up-set races.

Congressional District 12

John Murtha was first elected to the United States Congress representing Pennsylvania’s 12th Congressional District. In the 2006 election John Murtha defeated Diane Irey with 61 percent of the vote.

Voter Data/Sample Size

Data was selected from probable voters for the 2008 General Election. The file was randomized based on Party Affiliations and the survey results were measured to insure it was representative of the district. Recent remarks by John Murtha may be affecting the results of this poll.

Questions

We conducted a two questions survey, one on the Presidential Race and the other on CD12.

IF THE ELECTION FOR PRESIDENT WAS HELD TODAY FOR WHOM WOULD YOU VOTE?			
MCCAIN	415	48.6%	
OBAMA	334	39.1%	
UNDECIDED	105	12.3%	
	854	32.1%	
IF THE ELECTION FOR UNITED STATES CONGRESS WAS HELD TODAY FOR WHOM WOULD YOU VOTE? (CD2)			
MURTHA	279	34.8%	
RUSSELL	381	47.6%	
UNDECIDED	141	17.6%	
	801	30.1%	

Based on the sample size and probable voter list this sample has a 4% margin of error.
